25-1 Purpose

The purpose of the Air Force Network-Centric Solutions (NETCENTS) contract is to provide Air Force, Department of Defense and other federal agencies with a primary source of networking equipment/product supply and a means of system engineering, installation, integration, operations, and maintenance for a family of DoD adopted commercially standardized networking solutions that are interoperable with Air Force, joint, and DoD standardized networking technical architectures. The NETCENTS contract will include Network-Centric Information Technology, Networking, Telephony, and Security (NCITNTS) Voice, Video, and Data Communications to include (but not limited to) commercial-off-the-shelf (COTS) products, system solutions, and systems hardware and software to satisfy the requirements for interoperability, compatibility, and resource sharing of both government-furnished equipment (GFE) and contractor furnished equipment (CFE), supporting the Air Force's Global Information Grid (GIG) architecture. NCITNTS is designed as a flexible end-user solution to embrace diverse current and future requirements, ensure interoperability through standards-based technology (using both GFE and CFE), and implement the constant evolution of state-of-the-art technology and system solutions, supporting initiatives such as the Defense Information System Network (DISN), Defense Switch Network (DSN), Defense Message System (DMS), Air Force System Network (AFSN) (Secret Internet Protocol Router Network — [SIPRNET], Non-Classified Internet Protocol Router Network — [NIPRNET], Defense Research & Engineering Network (DREN), Combat Information Transport Systems (CITS) program, and the Air Force Voice Switching System (CoVSS).
